

# 7<sup>th</sup> International Conference on Fog, Fog Collection and Dew

24-29 July 2016, Wrocław, Poland

The 7th International Conference on Fog, Fog Collection and Dew will take place in Wrocław, Poland on 24-29 July, 2016.

For details see: <http://fog-conf.meteo.uni.wroc.pl/>

## Conference information

### Important dates

July 15, 2016	standard fee deadline registration deadline 3 <sup>rd</sup> circular release deadline for poster slide submission
July 24, 2016	first on-site registration (icebreaker)
July 25, 2016	opening of the conference
July 27, 2016	conference trip
July 29, 2016	conference closure

### The venue

The University of Wrocław, main building of Faculty of Law, Administration and Economics, 7-10 Uniwersytecka Street, Wrocław, Poland. See the FFCD website (Accommodation and venue) for precise position on the city map.

### Fee payment

On-site payment of the conference fee and fees for banquet and conference trip for accompanying persons will be possible only in the Polish zlotys in cash, not later than lunch break on Monday 25<sup>th</sup> July.

### Guidelines - oral and poster presentations

See the FFCD website (Presentation guidelines).

In case you have a poster, see the document "Posters" at the website (Documents to download). Particularly important is to know your poster number. It is necessary for finding the table to mount your poster and to know

your position in a queue to give your poster talk during the plenary poster session.

### Foundation of an association

Almost 20 years of the **International Conference on Fog, Fog Collection and Dew** show that this is an ongoing and energetic initiative that continues to attract both experienced and emerging scientists and engineers. We plan to set an organisational framework to facilitate processes such as decision-making and fund-raising. We will present a proposal for the foundation of an international association during the 7<sup>th</sup> conference. Please discuss the proposal, and please consider to run as a candidate for the board. The foundation process including elections is scheduled for Friday among the people attending this meeting.

### Conference trip

See the FFCD2016 website (Documents to download/Conference trip description).

### Conference programme

The programme details are still in the construction process. The updated version will be released 20 July 2016 at the conference website (Documents to download/Conference programme).

### Call for papers

The Scientific Committee is planning to put together a special issue in Aerosol and Air Quality Research (<http://aaqr.org/>) after the conference. Any contributions from the conference topics are welcome. Authors are encouraged to consider a contribution to this special issue. A separate call for papers will be distributed.

## Practical information

### FFCD2016 airport post

To help the arriving FFCD2016 participants, we are planning to set an FFCD2016 post at the Wrocław airport in its public access section just in front of the 'arrivals' gate. So please, look around for such a post just after taking your luggage from a carousel and crossing this gate. There should be a student or two, standing by the conference logo, who will be ready to help you on different practical matters.

Do not hesitate to contact them e.g. on currency exchange, taxi call, municipal transport, the way to your hotel etc. The post will be working on Saturday and Sunday (23rd and 24th July) between 8.30 a.m and 12 a.m. midnight when all flights of traditional airlines take place. Also a major part of low-cost arrivals are within this time span.

### Currency exchange

We do not recommend to exchange money at the currency exchange office just at the airport. They apply really very large overhead of exchange reaching more than 10% from an average rate. The use of cash machine at the airport should be much better option.

In the city center there are many exchange offices where you can exchange money at much better rate than at the airport, with the difference from an average exchange rate of major currencies not larger than 2%. Such offices called 'Kantor Wymiany Walut' or simply 'Kantor' are safe sites to exchange money; they do exchange at least 10-15 currencies from the western financial market including the Japanese Yen.

Also exchanging money at any bank is safe but they normally use quite large spread around 3 - 3.5% of an average exchange rate.

## Contact

University of Wrocław  
Faculty of Earth Sciences and Environmental Management  
Department of Climatology and Atmosphere Protection  
Kosiby 8 street, PL51-621 Wrocław, Poland  
e-mail: fogdew2016@uwr.edu.pl  
<http://foq-conf.meteo.uni.wroc.pl>

### Taxi and municipal transport

Both means of transport are well developed in Wrocław. Going by taxi from the airport to the city center should not be more than 50 PLN. One taxi company called RYBA-TAXI promised us to charge you for such way only 35 PLN - ask at the airport FFCD post or use following phone numbers:  
(+48) 713 067 067  
(+48) 516 007 700  
(+48) 516 007 707.

There is also one bus line, number 106, connecting the airport with the city center, see:

<http://www.wroclaw.pl/przystanek-port-lotniczy-linia-106-kierunek-dworcowa-slupek-17530>

Three last stops of this line (Plac Orłąt Lwowskich, Renoma and Dworcowa) are situated in the city center, 500-1000 meters to the south-west, south and south-east from the central market square (Rynek). One normal ticket is 3.00 PLN, ticket for luggage 1.50 PLN, both can be bought on the bus.

After registration, in the conference kit, you will find one week ticket for municipal transport (buses and streetcars during the day and at night), which is valid continuously for 168 hours starting from its validation at the beginning of the first use on the bus or in the streetcar.

### Emergency phone

**112** - integrated emergency phone number

**999** - emergency medical service

**997** - the police

In case you are in real trouble e.g. you didn't get a help at the above phone numbers you can use also for 24 hours a day a phone number of FFCD2016 organizers which is: (+48) **609 688 247**. Please do not use this number without a serious need.
